Meeting Review Notes (with Abram)

Bersabeh Zenebe

Nov. 14

Turn vertical layout into landscape - focus on mobile layout later

Allow high quality images to span entirety of background

Include navigation bar

Think about a footnote if not using a sources page

Aesthetics - how do typographic elements feel cohesive with images. Do they blend or should they feel organized into specific slots?

How will buttons feel recognizeale in navigation tab?

What elements should be consistent from page to page and which elements can serve as fun/random moments of exploration/curiosity?
